I am passionate about the web, its impact, and its potential to transform the world, this is why I made the decision to retrain and change my career path to become a Web Developer back in 2017. I am looking for projects where i can work to build user-friendly solutions. If you are looking for someone with dedication, professionalism, and problem-solving skills contact me

EXPERIENCE

Personal Project
Raffleup - React

https://raffleup.azurewebsites.net/

Personal Project
Restaurant site - React/Nodejs
appetize.io/something

Personal Project
Restaurant App- ReactNative
https://something.net

Raffleup is a web based tool that allows you to choose a random winner from a meetup.com event. First, authenticate Raffleup with Meetup API to pull your meetup groups. Choose group, choose event, Raffleup will show a roulette of images of the attendees at event. Click 'START' and roulette will spin and stop on random winner.

This website uses ReactStrap for responsive UI design. It also uses React router for its abilities with single page applications. I take advantage of the flux architecture and Redux to develop React-Redux powered applications. I am using Fetch for client-server communication and REST API on the server side. I also implemented react animation support and testing.

This project is cross-platform, native iOS and Android app using React Native and the Expo SDK. I used Redux-Persist to storage and rehydrate the state. I also employed animations to enhance user experience and use gesture-based interaction for the app.

EDUCATION

Nucamp Coding Bootcamp
October 2018 - Present

The course started with the fundamentals of programming and responsive design using HTML,CSS,JS, and Bootstrap. Then I learned how to create web and mobile interfaces using the latest frameworks like ReactJS and React Native. I also learned Back-end Development using NodeJS, Express and MongoDB.

Gov. John Rogers High School
Graduated 2011 - Diploma

I was a class representative my final two years of high school. I spent three years in chess club. I spent two years in Web Design elective classes.

KEY SKILLS

CSS PREPROCESSING

VERSION CONTROL / GIT

RESPONSIVE DESIGN

TESTING / DEBUGGING
